

July 12, 2017

1516 Ninth Street
Art Rosenfeld Hearing Room – First Floor
Sacramento, California 95814

10 a.m.

(Wheelchair Accessible)

THE COMMISSION WILL CONSIDER AND MAY TAKE ACTION ON THE FOLLOWING ITEMS:

1. CONSENT CALENDAR. (Items on the Consent Calendar will be taken up and voted on as a group. A commissioner may request that an item be moved and discussed later in the meeting.)
 - a. LOS ANGELES DEPARTMENT OF WATER AND POWER's (LADWP) REQUEST TO USE THE DATA COLLECTION AND ANALYSES COMPLIANCE OPTION. Proposed resolution approving LADWP's request to use the data collection and analyses compliance option under California Code of Regulations, Title 20, Section 1343(f), which allows utilities to participate in certain research projects, including the California Commercial End-Use Survey, in lieu of completing the survey plans, surveys, and reports described in California Code of Regulations, Title 20, Sections 1343(b)-(e). Contact: Sylvia Bender.
 - b. 2016 PUBLIC DOMAIN CALIFORNIA BUILDING ENERGY CODE COMPLIANCE SOFTWARE-RESIDENTIAL, CBECC-RES 2016.3.0. Proposed resolution approving the 2016 Public Domain California Building Energy Code Compliance Residential software, CBECC-Res 2016.3.0, that may be used to demonstrate performance compliance with the residential provisions of the 2016 Building Energy Efficiency Standards (also known as the Energy Code). Among other improvements, this version incorporates a cap on the amount of Energy Design Rating credit from solar photovoltaic (PV), bug fixes primarily affecting additions and alterations, and other requested enhancements. The resolution also proposes to rescind approval of CBECC-Res 2016.2.1 and versions of EnergyPro and Right-Energy that are based on CBECC-Res 2016.2.1, as of October 25, 2017. (Public Resources Code, Section 25402.1(a), (b).) Contact: Larry Froess.
 - c. 2016 BUILDING ENERGY EFFICIENCY STANDARDS RESIDENTIAL ALTERNATIVE CALCULATION METHOD (ACM) REFERENCE MANUAL UPDATE. Proposed resolution certifying the updated 2016 Residential ACM Reference Manual as required by Public Resources Code Section 25402.1(e). This ACM Reference Manual documents the modeling methods used in residential compliance software for demonstrating performance compliance with the 2016 Building Energy Efficiency Standards. Contact: Dee Anne Ross.
 - d. TRANE U.S., INC. Proposed resolution approving Amendment 1 to Grant Agreement EPC-14-059 with Trane U.S., Inc. for a 12-month time extension and a budget reallocation. A merger caused a major subcontractor to be unable to

continue participation in the project. Since this subcontractor was responsible for several project elements, the recipient needed to secure the commitment of several new equipment vendors and subcontractors to fulfill the project scope. The time extension and budget reallocation would allow for execution of the new subcontracts and provide sufficient time for microgrid operational data collection. (EPIC funding) Contact: Kiel Pratt.

- e. GAS TECHNOLOGY INSTITUTE. Proposed resolution approving Amendment 1 to Grant Agreement PIR-14-017 with the Institute of Gas Technology dba Gas Technology Institute (GTI) to change the demonstration site, incorporate GTI staff adjustments and reallocate the project budget. The Energy Commission funding amount and agreement end term are not changed. (PIER NG funding) Contact: Rajesh Kapoor.
 - f. GREENKRAFT, INC. Proposed resolution approving the Repayment, Waiver, and Release Agreement with Greenkraft, Inc. This Agreement will require Greenkraft, Inc. to reimburse the Energy Commission for \$1,284,000 relating to unused natural gas and propane vehicle purchase incentive funding that was provided through Agreements BDIR-12-23 and BDIR-12-25. Contact: Andre Freeman.
 - g. AMERICAN COUNCIL FOR AN ENERGY EFFICIENT ECONOMY. Proposed resolution approving a \$4,990 co-sponsorship and use of the Energy Commission's name and logo for the 2017 Behavior, Energy and Climate Change Conference convened by the Precourt Energy Efficiency Center at Stanford University, the American Council for an Energy Efficient Economy, and the Berkeley Energy and Climate Institute. The conference presents research in organizational behavior and decision-making, and techniques for using that knowledge to accelerate the transition to an energy-efficient and low-carbon economy. (ERPA funding) Contact: Sylvia Bender.
2. ENERGY COMMISSION COMMITTEE APPOINTMENTS. Possible approval of appointments to the Energy Commission's Standing Committees and Siting Case Committees. Contact: Kevin Barker. (Staff presentation: 5 minutes)
 3. SUMMER INSTITUTE FOR ENERGY LAW AND POLICY PRESENTATION. The Florin High School LAW Academy will present their final project which will include highlights from their research, staff interactions, and field trips to learn about key energy issues facing California. Contact: Alana Mathews. (Staff presentation: 10 minutes)
 4. RENEWABLES PORTFOLIO STANDARD PROGRAM. Proposed resolution adopting revisions to the Renewables Portfolio Standard Eligibility Guidebook Ninth Edition (Revised). Revisions are proposed to clarify the eligibility of aggregated units by removing the requirement that an aggregated unit must receive benefits from a rate-payer funded incentive program, participate in a net metering tariff with a load serving entity, or primarily serve onsite load in order to be certified. Contact: Camille Remy-Obad. (Staff presentation: 5 minutes)
 5. ITRON, INC. WHICH WILL DO BUSINESS IN CALIFORNIA AS IBS. Proposed resolution approving termination without cause of Agreement 500-15-003, with Itron, Inc. Which Will Do Business in California as IBS, which was entered into to conduct an audit of the operational performance of solar energy systems that received incentives through the NSHP program. Contact: Natalie Lee. (Staff presentation: 5 minutes)
 6. CITY OF BRISBANE. Proposed resolution finding that the city of Brisbane's locally adopted energy standards will require buildings to be designed to consume no more energy

than permitted by the 2016 Building Energy Efficiency Standards. The city of Brisbane's locally adopted energy standards will require installation of cool roofs and solar PV or solar hot water systems in all new buildings. Contact: Ingrid Neumann. (Staff presentation: 5 minutes)

7. CITY OF FREMONT. Proposed resolution finding that the city of Fremont's locally adopted energy standards will require buildings to be designed to consume no more energy than permitted by the 2016 Building Energy Efficiency Standards. The city of Fremont's locally adopted energy standards will require installation of a minimum amount of photovoltaics in new single family residential construction based on the building square footage or on meeting 55 percent of the total Time Dependent Valuation (TDV) Energy as calculated by Title 24, Part 6 performance compliance software. Contact: Ingrid Neumann (Staff presentation: 5 minutes)
8. CITY OF HEALDSBURG. Proposed resolution finding that the city of Healdsburg's locally adopted energy standards will require buildings to be designed to consume no more energy than permitted by the 2016 Building Energy Efficiency Standards. The city of Healdsburg's locally adopted energy standards will require new single family residential construction greater than 3000 square feet to be 15 percent more energy efficient than required by the 2016 Standards. Contact: Ingrid Neumann. (Staff presentation: 5 minutes)
9. CITY OF PORTOLA VALLEY. Proposed resolution finding that the City of Portola Valley's locally adopted energy standards will require buildings to be designed to consume no more energy than permitted by the 2016 Building Energy Efficiency Standards. The City of Portola Valley's locally adopted energy standards will require efficiency improvements of 10 percent for single family residential construction, newly constructed buildings as well as additions and alterations to existing buildings, based on the corresponding Green Point Rated checklists. Contact: Ingrid Neumann. (Staff presentation: 5 minutes)
10. CITY OF SAN RAFAEL. Proposed resolution approving Agreement 001-17-ECD for a \$1,178,813 ECAA loan at one percent interest to the city of San Rafael to reduce energy consumption and costs at multiple end-use locations. Energy efficiency measures include retrofitting or replacing building and street lighting fixtures, and enhancing existing energy management control systems with new sensors and automated analysis. This project is estimated to save 1,045,084 kWh and 2,338 therms, reducing 374 tons carbon dioxide equivalent in greenhouse gas emissions, and saving the city \$175,798 in energy costs, annually. Based on the estimated savings and loan amount, the simple payback is 6.7 years. (ECAA funding) Contact: Armando Ramirez. (Staff presentation: 5 minutes)
11. CALIFORNIA HOMEBUILDING FOUNDATION. Proposed resolution adopting California Environmental Quality Act Findings for California Homebuilding Foundation's Zero Energy Residential Optimization - Community Achievement Project new demonstration site at the Abrams "B" housing development in the City of Marina, and approving Amendment EPC-15-042-01 with California Homebuilding Foundation. (EPIC Funding). Contact: Brad Williams. (Staff presentation: 5 minutes)
 - a. CALIFORNIA ENVIRONMENTAL QUALITY ACT FINDINGS. Findings that based on the lead agency City of Marina's Final Environmental Impact Report and supplement thereto, mitigation monitoring plan, and adoption of a statement of overriding considerations, the work under the proposed project's new demonstration site at the Abrams "B" housing development in the City of Marina presents no new significant or substantially more severe environmental impacts

beyond those already considered and mitigated and adopting a statement of overriding considerations.

- b. CALIFORNIA HOMEBUILDING FOUNDATION’S ZERO ENERGY RESIDENTIAL OPTIMIZATION – COMMUNITY ACHIEVEMENT PROJECT. Proposed resolution approving Amendment EPC-15-042-01 with California Homebuilding Foundation, as part of the original grant amount of \$4,819,805, to fund a community-scale demonstration of cost-effective Zero Net Energy construction for a subdivision of single-family homes at the Abrams “B” housing development in the City of Marina. The project will identify, develop and demonstrate cost effective ZNE designs and will evaluate actual energy savings, costs, behavioral aspects, and indoor air quality in these homes.
12. DEVELOPMENT, DEMONSTRATION AND DEPLOYMENT OF ENVIRONMENTALLY AND ECONOMICALLY SUSTAINABLE BIOMASS-TO-ENERGY SYSTEMS FOR THE FOREST AND FOOD WASTE SECTOR, GFO-15-325. This solicitation sought proposals to fund applied research and development (AR&D) and technology demonstration and deployment (TD&D) activities to advance bioenergy electricity generation. Consistent with the 2015-2017 EPIC Investment Plan and in coordination with the California Public Utilities Commission, the solicitation addresses three bioenergy funding initiatives. This solicitation is also responsive to the Governor’s 10-30-2015 Proclamation of a State of Emergency to protect communities against unprecedented tree die-off. (EPIC funding) Contact: Kevin Uy. (Staff presentation: 5 minutes)
- a. TAYLOR ENERGY. Proposed resolution approving Agreement EPC-17-012 with Taylor Energy for a \$1,499,000 grant to perform pilot-scale demonstrations of three different energy pathways for conversion of woody biomass to electricity. After identifying the optimal pathway, extended testing will be performed and the technical, economical, and environmental performance of a full-scale facility will be evaluated via modeling and simulation.
 - b. ALTEX TECHNOLOGIES CORPORATION. Proposed resolution approving Agreement EPC-17-013 with Altex Technologies Corporation for a \$1,499,994 grant to develop a pilot-scale modular biomass power system that uses forest slash as a renewable fuel. The system, based on an indirect-fired gas turbine technology scaled at 100 kWe, will generate electricity while meeting criteria pollutant requirements, supporting renewable energy goals, reducing forest fire hazards and greenhouse gas emissions, and improving overall forest sustainability.
13. EMERGING ENERGY EFFICIENT TECHNOLOGY DEMONSTRATIONS (EEETD), GFO-16-304. This solicitation sought proposals to accelerate market adoption of innovative, pre-commercial energy efficiency technologies into the marketplace through full scale monitoring, evaluating and reporting on the actual performance of the technology in the field. This could result in rapid deployment and demonstration of innovative emerging energy efficiency technologies into the commercial building sector. (EPIC funding) Contact: Felix Villanueva. (Staff presentation: 5 minutes)
- a. TAYLOR ENGINEERING, LLC. Proposed resolution approving Agreement EPC-17-001 with Taylor Engineering, LLC for a \$2,966,716 grant to demonstrate the viability and scalability of innovative control strategies in existing commercial buildings. This project also aims to validate a new delivery mechanism for control system upgrades with plug-and-play solutions in collaboration with industry and utilities to address California's need for cost-effective energy reductions to meet

Senate Bill 350 requirements. The demonstrations will occur in office buildings in Northern and Southern California.

- b. WILLDAN ENERGY SOLUTIONS. Proposed resolution approving Agreement EPC-17-009 with Willdan Energy Solutions for a \$3,994,256 grant to demonstrate a suite of pre-commercial energy-efficiency technologies to be installed in an existing office and laboratory building in Southern California. The technologies to be demonstrated include: chillers using “next-generation” low global warming refrigerants; advanced LED lighting; and advanced controls for zonal lighting, HVAC, plug-load controls, demand response and laboratory exhaust fans.
 - c. CENTER FOR SUSTAINABLE ENERGY. Proposed resolution approving Agreement EPC-17-008 with Center for Sustainable Energy for a \$2,824,685 grant to demonstrate the impact of an integrated suite of pre-commercial energy efficiency technologies in a large, existing retail building with a goal of achieving a 20 percent reduction in energy use. Potential measures include advanced direct current lighting, advanced heating, ventilating and air conditioning systems, and integrated system and building level controls. The demonstration will occur in Covina, California.
14. SOLAR+: TAKING THE NEXT STEPS TO ENABLE SOLAR AS A GRID ASSET, GFO-16-309. This solicitation sought proposals to fund technology development, pilot demonstrations, and full-scale demonstrations to advance the deployment and grid integration of distributed solar resources through the use of energy storage, smart inverters, and advanced forecasting and modeling techniques. (EPIC funding) Contact: Angela Gould. (Staff presentation: 5 minutes)
- a. HUMBOLDT STATE UNIVERSITY SPONSORED PROGRAMS FOUNDATION. Proposed resolution approving Agreement EPC-17-002 with Humboldt State University Sponsored Programs Foundation for a \$1,500,000 grant to fund the development and pilot testing of an advanced distributed energy system that includes solar photovoltaic, energy storage and advanced building system controls. The project will innovate across-site targeting guidelines, hardware design practices, and model-predictive control software to enable the scale-up of these technologies in small and medium-sized commercial buildings throughout California.
 - b. CLEAN POWER RESEARCH, L.L.C. Proposed resolution approving Agreement EPC-17-003 with Clean Power Research, L.L.C. for a \$750,000 grant to provide the California Independent System Operator with an improved 10-minute to day-ahead high resolution, system-wide, and probabilistic power production forecast for all California photovoltaic systems.
 - c. ENERGY AND ENVIRONMENTAL ECONOMICS, INC. (E3). Proposed resolution approving Agreement EPC-17-004 with E3 for a \$987,379 grant to develop a Solar + Storage Tool to evaluate and optimize the dispatch, operations, and value proposition of integrated solar + storage systems.
 - d. ELECTRIC POWER RESEARCH INSTITUTE, INC. Proposed resolution approving Agreement EPC-17-005 with Electric Power Research Institute, Inc. for a \$1,491,764 grant to demonstrate a customer side of the meter, commercial scale photovoltaic and storage system, which includes advanced energy management algorithms coupled with high efficiency, low cost, and designed for scale energy efficiency and distributed resources technologies. It is located at a brownfield site with an established load profile and a real economic use (coffee roasting business) in a disadvantaged community. The project will focus on

demonstrating local and distribution grid services and applications, without hindering customer's business imperatives.

- e. ELECTRIC POWER RESEARCH INSTITUTE, INC. Proposed resolution approving Agreement EPC-17-006 with Electric Power Research Institute, Inc. for a \$749,740 grant to develop an improved forecasting of solar irradiance in California, with a particular focus on fog and stratus conditions, through targeted deployment of instrumentation. This project will use a targeted instrumentation network, consisting of existing and new sensors, to improve the forecasts that are most important to the California Independent System Operator and utility operations.
 - f. CENTER FOR SUSTAINABLE ENERGY. Proposed resolution approving Agreement EPC-17-007 with the Center for Sustainable Energy for a \$2,005,923 grant to create and demonstrate the impact of an integrated community solar and storage energy system at a low-income mobile home park in Bakersfield, California. The community solar and energy storage system is expected to reduce net energy consumption and reduce energy bills for residents while providing benefits to the distribution grid.
15. DISCUSSION OF ENERGY COMMISSION PROGRESS RE IMPLEMENTATION OF THE CLEAN ENERGY AND POLLUTION REDUCTION ACT OF 2015 (SB 350). Staff presentation regarding progress on implementation of SB 350 requirements, including administration of the California Renewables Portfolio Standard program, review of local publicly owned electric utility integrated resource plans, revision of Commission data collection regulations to improve demand forecasting, identification of progress in meeting the bill's goals of 50% renewables procurement and doubling of energy efficiency, implementation of widespread transportation electrification, and preparation and publication of the study required by Public Resources Code section 25327 regarding barriers for low-income customers to energy efficiency, weatherization, and renewable energy investments. Contact: Michael Sokol. (Staff presentation: 5 minutes)
16. **Minutes:** Possible approval of the June 14, 2017 Business Meeting minutes.
17. **Lead Commissioner or Presiding Member Reports.** A Lead Commissioner on a policy matter may report to the Commission on the matter and discussion may follow. A Presiding Member on a delegated committee may report to the Commission on the matter and discussion may follow.
18. **Chief Counsel's Report:** Pursuant to Government Code section 11126(e), the Energy Commission may adjourn to closed session with its legal counsel to discuss any of the following matters to which the Energy Commission is a party:
- a. *In the Matter of U.S. Department of Energy (High Level Waste Repository), (Atomic Safety Licensing Board, CAB-04, 63-001-HLW).*
 - b. *State of California v. United States Department of Energy (9th Cir. Docket No. 09-71014).*
 - c. *Energy Commission v. United States Department of Energy (2nd Cir. Docket No. 17-1798).*
 - d. *Communities for a Better Environment and Center for Biological Diversity v. Energy Commission (Court of Appeal, First Appellate District, # A141299).*
 - e. *Energy Commission v. SoloPower, Inc. and SPower, LLC. (Sacramento County Superior Court # 34-2013-00154569)*

- f. *Energy Commission v. Electricore, Inc. and ZeroTruck* (Sacramento County Superior Court #34-2016-00204586)
- g. *Helping Hand Tools and Robert Simpson v. Energy Commission* (San Francisco Superior Court Case # CPF-17-515576)
- h. *National Electrical Manufacturers Assn v. United States Department of Energy* (4th Cir. Docket No. 17-1341)
- i. *Rosado v. Roman, et al.* (Federal District Court, Oregon District, #3:16-cv-00784-SI).

Pursuant to Government Code section 11126(e), the Energy Commission may also discuss any judicial or administrative proceeding that was formally initiated after this agenda was published; or determine whether facts and circumstances exist that warrant the initiation of litigation, or that constitute a significant exposure to litigation against the Commission, which might include:

- a. Claims filed at, and rejected by, the Victim Compensation and Government Claims Board against a number of defendants including the Energy Commission relating to the gas leak at Aliso Canyon.
 - b. The U.S. Department of Energy's actions to delay effective dates and failures to complete certain energy conservation standards and test procedures for appliances.
 - c. The licensing process for a nuclear waste storage repository at Yucca Mountain, Nevada.
 - d. Recovery of ARFVTP incentive funds paid to Greenkraft, Inc. under reservations BDIR-12-23 and BDIR-12-25.
19. **Executive Director's Report.**
20. **Public Adviser's Report.**
21. **Public Comment:** People may speak up to three minutes on any matter concerning the Energy Commission, with the exception of items appearing elsewhere on this agenda or items related to pending adjudicative (certification or enforcement) proceedings.

If you require special accommodations, contact Poneh Jones at 916-654-4425, five days before the meeting.

News media inquiries should be directed to:

Media and Public Communications - 916-654-4989

Questions about participation in the Business Meeting should be directed to:

Public Adviser's Office - 916-654-4489 or 800-822-6228

Participating by Telephone at a Business Meeting

To participate by telephone, please call toll free 1-888-823-5065 on Business Meeting days after 9:50 a.m. (PDT). The pass code for the meeting is "Business Meeting" and the call leader is Jerome Lee. If you plan to speak about a specific item, please give the operator the item number.

To avoid occasional technical problems with the Commission's telephone link, the Commission recommends that a written comment also be submitted either by facsimile or

e-mail to the Public Adviser by 5 p.m. two days before the scheduled business meeting.
Fax (916) 654-4493 or e-mail publicadviser@energy.ca.gov.

The Business Meeting is broadcast via WebEx, the Energy Commission's on-line meeting service. To listen to the meeting and view any presentations, please click the following link or paste it into your browser:

<https://energy.webex.com/energy/onstage/g.php?t=a&d=928176922>

You may also go to <https://energy.webex.com/ec> and click on the Business Meeting link. If you can't find the Business Meeting link, click on the "Unlisted Events" link on the left of your screen and enter Meeting Number **928 176 922**. The WebEx broadcast is listen-only. To make a comment or ask a question, please call into the meeting at 888-823-5065 as described above.

The Energy Commission building has wireless Internet access available in the atrium, coffee shop, and library.

Subscribe to Electronic Mail Lists

To reduce paper and mailing costs, the Energy Commission offers an automated e-mail system for the business meeting agendas. To subscribe, please go to our Business Meetings page www.energy.ca.gov/business_meetings/ and use the form on the right side under 'Subscribe'.

Adjournment of Hearings and Meetings: Depending upon time available and the orderly management of proceedings, the Commission may order adjournment (recess or postponement) of any noticed hearing or meeting, to be continued to the next day, another specific date or time, or to the next business meeting, as appropriate. Any such adjournment will be noticed at the time the order of adjournment is made (Government Code §§11128.5, 11129).
