| CLASSIFICATION: | Air Pollution Specialist |
| TENURE/TIME BASE: | Permanent/Full-time |
| SALARY: | Range A: \$4,651 - \$5,546 Range B: \$5,569 - \$6,971 Range C: \$7,196 - \$9,000 |
| LOCATION: | Zero-Emission Vehicle Infrastructure Office Fuels and Transportation Division Sacramento, CA |
| FINAL FILING DATE: | September 26, 2017 |

Are you interested in a career that makes a positive impact on California and the world? Would you like to be part of a talented and passionate team committed to developing innovative strategies and recommending public policy solutions that reduce greenhouse gas emissions, promote energy efficiency and reduce our dependence on petroleum? Are you prepared for an exciting challenge? If so, the California Energy Commission, a special funded agency, is seeking exceptional people to build upon California's transportation energy and energy efficiency successes, and shaping our energy future.

DUTIES/RESPONSIBILITIES:

Under close (Range A) or general (Range B or C) supervision of the Energy Resources Specialist III (Supervisory) in the Zero-Emission Vehicle and Infrastructure Office of the Fuels and Transportation Division, the incumbent will serve as a team lead in implementing and evaluating the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP) by performing complex technical and analytical tasks. Key functions include the use of scientific principles and quantitative analytical skills to evaluate the greenhouse gas emission reductions, air pollutant emission reductions, toxic air contaminant reductions, energy impacts, and petroleum displacement of projects under the ARFVTP. The incumbent will work with other technical leads to identify the critical barriers and opportunities associated with multiple alternative fuels and vehicle technologies and measure the ARFVTP's ability to impact those barriers and opportunities. The incumbent will also conduct data collection and independent research to develop policy recommendations that can advance the state's goals for cleaner transportation. Establishing and maintaining working relationships with other units, other divisions, policymakers, and outside agencies is fundamental.

DESIRABLE QUALIFICATION(S): The successful applicant should have:

- Technical knowledge of multiple alternative fuel pathways and advanced vehicle technologies, including electricity and plug-in electric vehicles; hydrogen and fuel cell electric vehicles; compressed and liquefied natural gas; biofuels, including biodiesel, renewable diesel, ethanol, and renewable natural gas; and other advanced vehicle technologies.
- Technical and scientific knowledge of greenhouse gases, criteria pollutants, toxic air contaminants, and energy.
- Gathering, managing, evaluating, and reporting data through Microsoft Excel (at a minimum), Microsoft Access, and/or other database management tools.
- Succinctly and accurately communicating policy ideas and technical concepts to policymakers, stakeholders, and others in both oral and written formats.

- Project management skills, including the ability to maintain a schedule, develop and refine a project's scope, and identify necessary resources.
- Thinking logically and creatively to develop processes for data collection and management.
- Coordinating with technical staff in different units, divisions, and agencies.

WHO MAY APPLY: Eligible candidates who are current state employees with status in the above classification or lateral transfers from an equivalent class, former state employees who can reinstate into this class or persons who are reachable on a current employment list for this classification. Appointment is subject to the provisions of the SROA process: SROA/SURPLUS/ REEMPLOYMENT candidates are encouraged to apply and must attach a copy of their status letter in order to be considered. Applications will be screened and the most qualified may be contacted for an interview.

Interested applicants must submit: A completed Standard State Application (Form 678) with an original signature to the contact/address listed below. Electronic applications will not be accepted. **You must clearly indicate the basis of your eligibility (i.e., list, transfer, SROA/Surplus, reinstatement, etc.), RPA #610-051 and Position #610-3887-006 in the "Explanation Section" of the STD. 678.**

***Please Note:** Possession of the minimum qualifications will be verified prior to the interview and/or appointment. If it is determined an applicant does not meet the minimum qualifications, the application may be forwarded to the State Personnel Board for review and the applicant's name may be removed from the eligibility list.*

SUBMIT APPLICATIONS TO:
California Energy Commission
Attn: (RPA 610-051)
1516 9th Street, MS-3
Sacramento, CA 95814
