Power Content Label

The State of California passed legislation (Senate Bill 1305) which requires all load-serving Electric Utilities to provide the "Power Content Label" on an annual basis. This label breaks down the type of energy resources that are used to serve the Utility's electric customers. For comparison, the Power Content Label also provides the most recent supply content breakdown for the statewide power mix.

POWER CONTENT LABEL

ENERGY RESOURCES	2013 RCMU POWER MIX (actual)	2013 CA POWER MIX** (for comparison)
Eligible Renewable	30%	19%
--Biomass & waste	30%	3%
--Geothermal	0%	4%
--Small hydroelectric	0%	1%
--Solar	0%	2%
--Wind	0%	9%
Coal	0%	8%
Large Hydroelectric	0%	8%
Natural Gas	0%	44%
Nuclear	0%	9%
Other	0%	0%
Unspecified sources of power*	70%	12%
TOTAL	100%	100%

* "Unspecified sources of power" means electricity from transactions that are not traceable to specific generation sources.

**Percentages are estimated annually by the California Energy Commission based on electricity sold to California consumers during the previous year.

For specific information about this electricity product, contact RCMU at (909) 919-2612. For general information about the Power Content Label, contact the California Energy Commission at (800) 555-7794 or <http://www.energy.ca.gov/sb1305/index.html>
