DOCKET 06-AFC-3	
DATE	MAR 19 2007
RECD.	MAR 19 2007

Dear Mr. Johnson:

On March 13, 2007, the Unified Port Authority of San Diego (Port) voted to reject plans to lease property to LS Power Generation, LLC (LS Power) to build the proposed South Bay Replacement Project (SBRP) – a 620 megawatt, natural gas fired, combined-cycle power plant. Since June 30, 2006, the California Energy Commission (Energy Commission) has been reviewing the Application for Certification (AFC) for the SBRP under a one-year permit process. Given the action of the Port and the inability of LS Power to secure a lease at the proposed site, it appears the status of the project has changed.

As such, the Energy Commission staff questions the viability of the proposed SBRP. Therefore, unless requested otherwise by the LS Power South Bay Siting Committee, Energy Commission staff intends to stop work on processing the SBRP AFC. Staff requests that LS Power advise the Energy Commission in writing as to whether it is your intention to suspend this project or request its termination.

We greatly appreciate your timely response to this letter.

Sincerely,

Bill Pfanner
Energy Commission Project Manager
